Report Callouts

1. Your district-compliant customized curriculum delivery site, branded with your logo, colors, fonts and styles.

2. C2C offers both Standards and Course reporting at the District, School, Class, and Individual Student level.

3. Review student performance and progress by standard as well as total time spent on materials aligned to each standard.

4. When a class uses materials aligned to multiple sets of standards, display each set separately. Use report data filters to focus on different types of assignments, student groups, and standard clusters.

5. Customize colors, labels, and cut scores to present and emphasize data stories.

6. C2C supports standards alignments using our proprietary C2CMap and Framework.

7. Dig into each item alignment or assignment to view even more details around item analysis, alignments, engagement, and performance for each standards-based assignment.

Report Callouts
8. Click the column header to view the individual student's standards report.

9. Standards Usage offers the latest cumulative time in minutes each student is spending in the system focused on each standard, including class averages and total time.

10. Customizable cut score overlay references student performance as compared to their usage data.

11. Turn on and off Colors and Minutes to focus on the data as needed.

Summary
C2C's signature Standards Reports are available at the District, School, Class, and Student levels. Track Student Performance, Usage, and Progress on all aligned course content, down to the item level. Continuously report the latest standards data cumulatively and per assignment. Not just for standards, C2C reports will also track progress against skills and objectives. Combine data from multiple courses when used in the same class and aligned to the same set of standards. C2C

Standards Reports take the guesswork out of determining impact and curriculum efficacy for you and your customers - included in your C2C Curriculum Delivery Experience.

Access within your branded, customized, district-compliant C2C Satellite with student, teacher, and administrator experiences. FedRAMP, FERPA, COPPA, CIPA, WCAG, SOC 2, and LTI compliant. Roster-ready with Clever, Classlink, Edlink, and Self-Registration built-in.
